DESIGN & COLOR OPTIONS

GRID PATTERNS AND TYPES

Enhance the look of your home with distinctive grid styles. All grids are between the glass—making cleaning easy. Simply choose a grid pattern and type below to accent your new windows or design your own grid pattern.

GRID PATTERNS

COLONIAL

PRAIRIE

DIAMOND

The number of grids used in the colonial (standard) and diamond patterns vary depending on window size.

GRID TYPES

FLAT

SCULPTURED

V-GROOVE

SIMULATED DIVIDED LITE
(outside of glass in and out)

OBSCURE GLASS

Obscure glass is commonly used in bathrooms to distort the image behind the glass. Choose from these options.

NORMAL VIEW

STANDARD
OBSCURE

AQUA

RAIN

TEMPERED GLASS

Often required in bathrooms, stairways and windows close to the floor or a doorway, tempered glass is similar to a car windshield so it will not shatter if broken. Check your local building code for any windows requiring tempered glass.

DOUBLE HUNG AND SINGLE HUNG MEETING RAIL OPTIONS

You have the option to change the height of your single hung or double hung meeting rail. A custom meeting rail is available by measuring from the bottom sill of the window to the top of the meeting rail.

COTTAGE

ORIEL

CUSTOM

COLOR CHOICES

Several color choices are available. Choose from solid vinyl colors or optional color coatings and woodgrain interiors.

EXTERIOR/INTERIOR COLORS

WHITE

Features & Benefits of Single/Double Hung and Sliders

Tilt in for Easy Cleaning

Fusion Welded

Tilt Latches:

Appealing and functional tilt latches allow a moveable sash to be tilted in for easy cleaning.

Strong Cam

Lock and Keeper:

The cam action lock and keeper for hungs and sliders actually draws the sash closer together for a positive lock.

- ▶ **Fusion Welded Frame and Sash:** Provides an impenetrable barrier to air and water penetration and utmost in strength and integrity.
- ▶ **5 Degree Positive Sloped Sill (for hung products):** Provides easy cleaning and water runoff. Hung and Sliders recessed in pocket sill for optimal performance.
- ▶ **Deeply Pocketed Head:** With weather stripping to resist air infiltration.
- ▶ **Commercial Grade Balance System (for hung products):** Provides smooth operation with balance covers for classic appearance.
- ▶ **New Soft Curved Sash Design:** Looks like a traditional wood window sash from inside and outside.
- ▶ **Attractive Integral Lift Rail:** Provides easy sash operation.
- ▶ **Easy Cleaning:** Removable pocket slider sashes for easy lift out and clean.
- ▶ **Tilt-In Sashes:** Both sash tilt in for easy cleaning on double hung, bottom sash tilt for single hung window.
- ▶ **3/4" Insulating Glass System:** Maximum regional thermal efficiency, double strength LowE glass with Argon comes standard for additional energy savings.
- ▶ **Warm Edge Technology:** Warm edge spacer provides a barrier to cold and heat transfer in insulating glass unit.
- ▶ **Interlocking Meeting Rail:** Integral Interlock provides additional security and has passed AAMA Forced Entry Resistance Test.
- ▶ **Strong Cam Lock and Keeper:** The cam action lock and keeper for hungs and sliders actually draws the sash closer together for a positive lock and helps reduce air infiltration.
- ▶ **Sash Vents:** (Optional) Allows for ventilation with security; have passed AAMA Forced Entry Resistance Testing but should not be used for security.
- ▶ **Abundant Weatherstripping:** Double mylar fins enhance resistance to air and water infiltration.
- ▶ **Non-Corrosive Hardware:** Years of trouble free performance, no matter what the environment.
- ▶ **Optional:** Jamb extensions, brick moulds, 3.5" trim and FlexScreens are optional for an enhanced look and easier installation.
- ▶ **Extruded Nail Fin:** On all products, built-in J channel available on hungs, sliders and picture windows.
- ▶ **20 Year All Inclusive Limited Warranty:** See warranty for specific details.

Double Hung

The foundation of the DuraPro 3000 Vinyl Window System is the double hung window. Traditional beauty and uncompromising strength are just the beginning. Both sashes of the DuraPro 3000 double hung tilt-in for easy cleaning. Fully weatherstripped components—combined with a proven balance system and fully interlocking rails—make the DuraPro 3000 double hung a favorite choice for homeowners. Optional internal grilles complete the architectural appeal.

Single Hung

The same high quality construction as the DuraPro 3000 double hung window with a fixed upper sash and tilt-in lower sash.

Single-hung windows remain one of the most popular new construction windows, and with good reason. They feature one sash, and it can slide up when you want to catch a fresh breeze. Since these windows feature fewer moving parts than many other windows, contractors and homeowners love their long-lasting durability.

Optional FlexScreen

Non-metal Reinforcement at Interlock

Optional Sash Vents

Spring-Loaded Code Compliant WOCD Option

Double Slider

The elegant, fresh look of the DuraPro 3000 sliding window enhances the natural lighting of your home, while maintaining superior energy performance. DuraPro 3000 sliding windows glide on adjustable metal dual rollers, for a smooth, easy operation every time. The DuraPro 3000 family of sliding windows will inspire your imagination with superior thermal performance.

Single Slider

Single slider windows feature one movable sash for venting. Contractors and homeowners often choose a single slider for a great value with maximum viewable area.

Casement/Awning /Picture Window

Tradition, innovation and function are combined in the DuraPro 3000 casement window. Sleek and stylish, the contoured sash reflect detailed craftsmanship. Multi-point locking allows for easy operation with just one locking lever. Casement windows open to a full 90 degrees for maximum ventilation and easy cleaning. The same sleek profile is also available in an awning style window.

Want a casement window but the look of a hung window? Use a casement with a center bar. Contoured casement and frame (not flat) have appearance of a hung or slider. Internal blinds which raise/lower and tilt are optional

Architectural

Express yourself with DuraPro 3000 architectural shapes and designs. Choose from a variety of styles, including:

- ▶ Half-round
- ▶ Circle
- ▶ Octagon
- ▶ Quarter-round
- ▶ Oval
- ▶ Trapezoids
- ▶ Eyebrow
- ▶ Ellipse

Architectural shapes are designed to integrate with any style of DuraPro 3000 windows, allowing you to showcase your own personal flair.

Bay & Bow

Transform any room with a DuraPro 3000 bay or bow window. All bay and bow windows are custom sized to fit any opening. Choose from double hung or casement flankers and add optional grilles that provide a warm, inviting appeal to any room. Available with stained wood or laminate to best match your decor.

Bay and bow windows are available in the same colors and laminates as the individual windows.

Patio

Redefine your living space with a stunning DuraPro 888 or 2030 patio door. With the same high performance standards as our windows, the DuraPro patio door is a model of thermal efficiency. All patio doors glide smoothly on dual tandem metal rollers. Add internal grilles and multiple options for hardware to complete the look. Available in standard and custom sizes: 2, 3 and 4 lite, sidelite, and transoms. Internal blinds which raise/lower/tilt are optional.

The 2030 model is reversible. Without removing the frame both sashes can be removed to allow for a larger opening and operating panel can be reversed.

Strength and value.

DuraPro 3000 Vinyl Window System utilizes only 100% vinyl by a leading world wide extruder. The manufacturing process results in beautiful, bright, strong, weather-resistant vinyl that is colorfast. Our windows are simulated for energy efficiency and condensation resistance to NFRC standards.
