by LINDSAY WINDOWS

# SINGLE & DOUBLE HUNG

Fusion welded frame and sash instead of mechanically fastened corners. Provides barrier to air and water.

EasyTru Balance System provides smooth opening and closing.

Balance tube covers for enhanced interior appearance.

Optional sash vents to limit opening of sash for ventilation.

Color coordinated cam action locks and keepers assure sashes are drawn together for security and energy efficiency.  
*(Two locks on windows ≥ 24")*

Ergonomically designed extruded, contoured lift rails at the top and bottom for easy opening and closing.

Brick mould, jamb extensions, 3.5" trim and many colors and wood grains available.

Extruded nail-fin, built-in J channel, and jamb extensions available.

Double Hung Window

Attractive picture frame exterior showing elegance with a rich curb appeal.

Enclosed screen track for screen retention and easy screen removal.

Strategically placed insulating chambers in frame and sash provide exceptional strength.

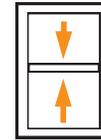

For easy cleaning, both sashes tilt in on double hung, bottom sash tilts in on single hung.

Heavy overlap interlock with non-metallic reinforcement provides extra strength and protection from outside temperatures.

Various Low-E glass packages provide improved energy efficiency.

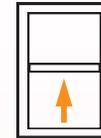

Welded sloped sill for superb water runoff and easy cleaning.

Double Hung Window

	Min	Max
Width	16.75"	52"
Height	24.75"	84"
U I	40"	120"

Single Hung Window

	Min	Max
Width	18.5"	52"
Height	26.5"	84"
U I	46"	120"

Tilt in for Easy Cleaning

## Color Choices

Many color and laminate combinations are available. Choose from same exterior and interior solid vinyl colors, interior laminate woodgrains, interior and exterior solid color laminations, or exterior and interior paint coatings. Warranty covers both exterior and interior laminates and paints. See warranty for details. Actual colors may vary from those shown.

### Exterior/Interior Solid Vinyl Colors

### Exterior/Interior Laminates

### Interior Laminate Woodgrains

*Jamb and casing available in same colors as windows including woodgrains. Woodgrain laminates are available only on white base for 3100 and 3300.*

### Exterior/Interior Paint Coatings

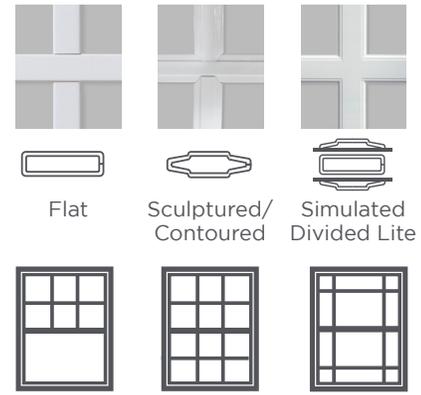

\*Custom color matching and custom laminate colors are available for larger jobs.

Custom color matching and custom laminate colors are available for larger jobs. Many color samples are available upon request.

## Grid Types And Patterns

**Grids in the IG**  
(in between the glass)

Optional grid colors/woodgrains for interior and exterior. Multiple grid patterns available.

Common and custom grid patterns available.

## Warm Edge Technology

SunView's technology incorporates a warm edge seal product that reduces condensation, frosting and mold growth while providing high levels of energy performance. Additional benefits include excellent argon retentions and durability under extreme conditions.

## Brick Mould Options Exterior Enhancements

## Sunview Pro EnTech Insulating Glass

EnTech insulating glass units deliver the ideal energy balance of solar heat control, high visibility and fade protection. With gas filled chambers and Low-E coatings, our windows provide high levels of year-round comfort and energy savings.

Glass Package	Pieces of Glass	Silver Layers	Gas Filler	Neat® Glass	Northern Region ENERGY STAR®	U-Value	SHGC	VT
<b>STANDARD</b> <b>EnTech</b> EnTech is a dual-glazed, soft coat Low-E glass unit.	2	2	Argon	No	Exceeds Current	.27	.27	.46
<b>OPTIONAL</b> <b>EnTech Pro</b> EnTech Pro is a dual-glazed, soft coat Low-E glass unit.	2	3	Argon	Yes	Meets Standard	.27	.20	.48
<b>OPTIONAL</b> <b>EnTech Peak</b> EnTech Peak is a top-of-the-line insulating glass unit. Not available in single hung or single slider.	3	5	Argon (standard) Krypton (optional)	Yes	Exceeds Standard	.18	.18	.34

### Plus (EnTech+, EnTech Pro+ and EnTech Peak+)

Add the plus feature to any of the above glass packages to obtain additional Low-E coating on the interior. The interior piece of glass is a hard coat Low-E. This option improves the EnTech or EnTech Pro u-value between .03 and .05.

Performance numbers shown for dual glazed windows (EnTech Peak is triple-glazed) without grids. Manufacturer reserves the right to modify materials that impact ratings. ENERGY STAR criteria is based on the rigorous Northern climate zone.

\*Neat® is an invisible, durable and permanent coating that helps your windows stay clean longer. It uses the sun's UV rays to loosen dirt so water can rinse it away  
\*\* Meets Northern Energy Star Standard with different option in windows. Please contact for more information.

\*\*\*Results listed are for the North-Central, South-Central, and Southern regions for Energy Star. The Northern Region implements new standards. Check with your dealer for further information.
