WHY CHOOSE US

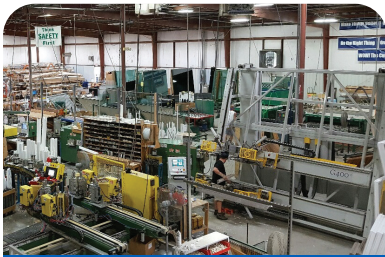

Lindsay Windows has been manufacturing windows since 1947. That is a long time; and as a result, we have thousands of satisfied customers. We are continually developing new and exciting ways to make our window the best in the industry— at a price that you and your family can afford.

OUR SUPPLIERS

We purchase our vinyl, hardware and glass from the best and most reputable companies. We choose suppliers who have an excellent reputation for providing the highest quality products and have been in the business for at least 25 years. This assures that you are getting the best performing components in your window.

"You gotta start with top notch material to get a high performing product."

OUR TECHNOLOGY

We manufacture our windows and doors using the most effective and innovative methods available. Our equipment utilizes computer controlled machines, 4-point welders, robotics, optimizers, etc. to provide you with quality custom-designed windows for your home.

"Efficient and effective manufacturing produces a high quality product."

OUR PRODUCT

We have been manufacturing windows since 1947—over 75 years!! We stay ahead of the trends and are always looking for products and processes to give you, the homeowner, the best windows and doors at prices you can afford. Our products exceed industry standards and are approved by Energy Star, AAMA, NFRC, etc.

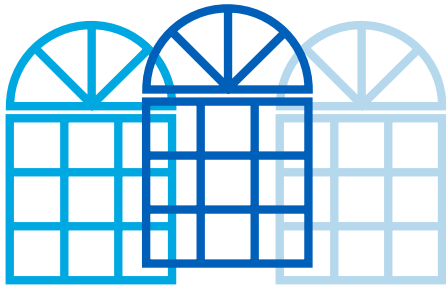

"Invest in our products for the best window on the market."

OUR PEOPLE

We take pride in what we build. Each employee is well trained to take care of our dealers and homeowners. In fact, our employees are our best sales force. They take pride in what they do and make the windows and doors as if they are making them for their own home.

*"We like working here
and we are proud of
what we do."*

FAMILY OWNED BUSINESS

Since 1947

*"We do what we say and we
are proud of our products."*

OUR OWNERS

We are a family owned private company. At each of our locations the leadership has a financial interest to provide the best service to our customers. Our expenses are low because we have no fat in our organization. We don't have big overhead (it costs too much) like many window companies. In fact, if you call after business hours or when customer service personnel are on other lines, an owner may answer the phone. We are financially strong so we have the ability to back up our excellent warranties. We make decisions that are best for our customers, not to satisfy outside investors, banking institutions, or board of directors.

OUR MISSION

Using the resources that God has entrusted us, our mission is to provide the best quality and value vinyl window products within the time requested.

We will use the most effective production processes while providing an excellent working atmosphere for employees and achieving a reasonable profit.

We have thousands of satisfied customers who are smiling because they are pleased with our products.

Invest in Lindsay Windows because our windows are the most energy efficient and we are Saving America's Energy.

Your dealer will provide you with specific information as to which of our products will be best for you.

WHAT OUR CUSTOMERS HAVE SAID

“My new windows make our home attractive with energy savings as a bonus.”

“My Lindsay Windows were ‘blown out’ in a tornado and parts of our home were destroyed. We reused all the windows and only two pieces of glass were broken!”

“These windows are easy to clean—even my husband can do it!”

“Because I am happy with my windows and my dealer, here is a list of my friends to call.”

“I like the fact that they are made for the heat and our severe winters.”

“I wish we had known about this company and their windows before. Why don't you advertise?”

“People think I have oak windows. I didn't tell them they are vinyl woodgrain.”

“I only bought a few windows to try them out. Now we are replacing all our windows with Lindsay.”

“I am sorry we wasted our time getting other window quotes. However, now I know that these windows are the best.”
